

**Information/Action Item**

***Student Impact Committee***

Consideration of issues to be addressed by Student Impact Committee

---

In its inaugural meeting, the Student Impact Committee will be identifying issues to explore. Committee Chair Johnny Garcia Vasquez has identified rising college tuition and fees and proposed cuts to student financial aid as appropriate subjects for committee consideration.

Chair Garcia Vasquez has asked that the information below be provided to the committee for purposes of this item.

**Tuition and Fee Increases and Enrollment Reductions**

California's budget shortfall has increased to \$15.7 billion. According to the Administration, bridging that gap will require a blend of severe cuts as well as the passage of the Governor's proposed tax initiative in November. "This measure temporarily increases the personal income tax on the state's wealthiest taxpayers for seven years and increases the sales tax by one-quarter percent for four years... The measure will generate an estimated \$8.5 billion through the budget year" and "will prevent deeper cuts to schools, protect local public safety funding, and assist in balancing the budget," the Governor's budget summary states.

If the tax measure is defeated by voters in November, the May Revise proposes "trigger cuts" to education and public safety, including \$250 million reductions each to UC and CSU and an additional \$300 million cut for the community college system.

UC officials have stated they need a \$125.4 million augmentation in the 2012-13 FY budget in order "to avoid a fee increase in the fall." If budget negotiations fail to provide that funding augmentation, it is possible that the Regents will consider a 6% fee increase at their next meeting scheduled in mid-July. Additionally, if the Governor's November tax initiative fails, officials have warned that the fee increase for 2012-13 would likely be "double-digits." The tuition fee at UC is currently \$12,192; a 6% increase would raise tuition by \$732 to \$12,924 annually.

Last November, the CSU Trustees approved a 9.1% fee increase effective Fall 2012, from \$5,472 to \$5,970. This action was taken before the decision had been made to make the 2011-12 trigger cut of \$100 million permanent, and before the current proposal for an additional trigger cut of \$250 million in 2012-13. CSU officials have since warned that, along with a wide range of cost reduction options, they may have to consider an additional mid-year fee increase (for the Spring 2013 term) to address some portion of the funding loss if the Governor's November tax initiative fails.

In order to address the ongoing effects of last year's \$750 million reduction in state support, the CSU Chancellor's Office has informed 14 campuses they will be closed for Spring 2013 admissions. (The other nine will continue to accept only SB 1440 transfers from community colleges.) The campuses have also been directed to waitlist all Fall 2013 applicants pending the outcome of the November tax measure and the related trigger cut.

Since 2009-10, resident fees at the California Community Colleges (CCC) have increased from \$26 per unit to \$46 per unit. In 2011-12, the system sustained \$503 million in cuts and are currently dealing with another unexpected revenue shortfall of roughly \$100 million "because property tax and student fees are lower than original estimates," according to the CCC Chancellor's office.

Their colleges have been forced to reduce course offerings by roughly 15 percent, increase class sizes, lay off adjunct faculty and other staff, institute furloughs, and spend down reserves and borrow money to manage cash flow. If the tax measure in November passes, it will provide a funding increase of at least 4 percent for fiscal years 2013-14 through 2015-16. If the measure fails, it will mean a \$300 million cut for the CCCs, roughly 6% of their system budget. In that event, the CCC Chancellor's Office is predicting further course reductions, layoffs, and borrowing.

### **Proposed Cuts to State Student Financial Aid**

#### 1. Raise the minimum grade point average requirements (GPA)

- Cal Grant A from 3.0 to 3.25
- Cal Grant B from 2.0 to 2.75
- Transfer Entitlement from 2.4 to 2.75

Commission analysis finds:

- These proposals would overwhelmingly affect the most disadvantaged Cal Grant B eligible students
- Approximately 81 percent of the affected students would be expected to attend a community college (47%) or a California State University (34%).
- The University of California (UC) would be the least affected (5%) as the minimum GPA for new students is around 3.0 and the average GPA for admitted new freshman is considerably higher. Some students with lower GPAs may be accepted as UC gives additional consideration to first generation college students who come from low-income households.

The Institute for College Access and Success (TICAS) analysis of Commission and segmental data revealed that African American and Latino students would be disproportionately affected by the GPA proposal. Whereas African American and Latino students comprise:

- 22% of the UC undergraduate population, the share of African American/Latino Cal Grant recipients affected at UC would be 53%.
- 36% of the CSU undergraduate population, the share of African American/Latino Cal Grant recipients affected at CSU would be 61%.
- 41% of the CCC undergraduate population, the share of African American/Latino Cal Grant recipients affected at CCC would be 69%.

The Commission's statewide Cash for College Program notes that nearly one-third of all the Cash for College students who met the minimum 2.0 GPA requirement last year would not qualify for a Cal Grant under this proposal.

2. Reduce the maximum Cal Grant awards for private non-profit and private for-profit institutions

- From \$9,708 to \$5,472 for private Non-Profit Colleges and Universities affecting 25,470 students; and
- From \$9,708 to \$4,000 for Private, For-Profit Colleges affecting 11,280 students.

When the Cal Grant Entitlement Program was established in 2001-02, the maximum award at non-public institutions was set at \$9,708. It was reduced for new recipients in 2004-05 and 2005-06, from \$9,708 to \$8,322, and restored to \$9,708 in subsequent years. The budget proposal would, for the first time, reduce the maximum award for both new and renewal recipients.

3. Eliminate the Loan Assumption Programs

This cut proposes to phase out the following loan assumption programs for teachers and nurses affecting approximately 2,600 teachers and 70 nurses:

- Assumption Program of Loans for Education (APLE)
- Graduate Assumption Program of Loans for Education (Grad APLE)
- State Nursing Assumption Program of Loans for Education for Nursing Faculty (SN APLE)

4. Codify current Commission practice to require community college enrollment and four-year college enrollment in consecutive years in order to be eligible for Transfer Entitlement Cal Grant awards.

At the November 18, 2011 Commission meeting, the Commission adopted a new policy for awarding Transfer Entitlement Cal Grant awards to allow otherwise eligible students to qualify for these awards without having attended a community college within the academic year before the award year. This proposal would maintain the requirement for concurrent enrollment.

5. Tie Cal Grant award levels to the federal Pell Grant award levels

According to this proposal, Cal Grant award levels would be dependent on Pell Grant award levels. Students receiving the maximum Pell Grant award would receive the full Cal Grant award. However, students receiving less than a full Pell Grant award would receive a pro-rated Cal Grant award based on the Pell Grant award percentage. For the first time, Cal Grant awards for students attending the University of California and California State University would be “decoupled” from mandatory system-wide tuition and fees.

Students with existing Cal Grant awards would not be subject to the proposal. Instead, the proposal would take effect for students applying for Cal Grants after July 2012. Therefore, the September 2, 2012 Community College competitive applicants would be the first students affected. The proposal would be phased-in by affecting first-year participants in the Cal Grant Program in 2013-14, then first- and second-year participants in 2014-15, until reaching full implementation in 2016-17.

Tab 1.b shows the estimated number of students affected and the estimated effect on each segment using available data for new Cal Grant recipients paid in 2011-12.

6. Lower the Cohort Default Rates (CDR) and implement a graduation rate standard to Cal Grant Program participating institutions

This proposal would set minimum performance standards by restricting Cal Grant Program participation to institutions that have a CDR below 15%. In addition, institutions would need to satisfy a newly required 30% minimum graduation rate. Any institution that exceeds the proposed lower CDR or drops below the new graduation rate will be prohibited from participating in the Cal Grant program for one academic year. Institutions such as community colleges with 40% or fewer of their students borrowing federal student loans would not be affected.

Tab 1.c lists the institutions that would be affected by lowering the CDR to 15 percent, with our estimated savings based on 2010-11 paid data. This list does not include the 76 currently ineligible institutions because they exceed existing CDR requirements.

Of the 23 institutions that would be affected by the new 30% minimum graduation rate standard, 13 of them would already be ineligible by virtue of the new lower CDR requirement.

### **The California Budget Process To-date**

Both the Assembly and Senate Budget Subcommittees on Education Finance have met on two occasions to discuss the Governor’s Budget and the May Revision proposals. On March 3<sup>rd</sup>, the Assembly Budget Subcommittee voted to reject the proposals to raise the GPA, lower the award amount for students attending private institutions, and eliminate the loan assumption programs. The Subcommittee left the Governor’s other proposals open. On April 19<sup>th</sup>, the Senate Budget Subcommittee met, but left all proposals open. In a subsequent hearing each subcommittee has heard public comments but taken no further actions.

**2012-13 Governor's May Revision and  
January Budget Proposals**

<b>Governor's May Revision Budget Proposals</b>	<b>Savings</b>
Tie the Cal Grant award levels to the Federal Pell Grant levels. The Administration proposes decoupling of the Cal Grant program award for students attending the University of California and California State University from an amount equal to mandatory system-wide tuition and fees. Based on 2011-12 paid data, this proposal would affect approximately 28,670 students.	0.0
Lower the Cohort Default Rate (CDR) and implement a graduation rate standard to Cal Grant program participating institutions. The May Revision proposes to change the default rate requirement from 30 percent to 15 percent and to add a 30-percent graduation rate requirement for all Cal Grant participating institutions. This proposal would affect an additional 73 institutions.	38.4
<b>Subtotal</b>	<b>38.4</b>
<b>Governor's January Budget Proposals</b>	<b>Savings</b>
Raise the minimum GPA requirement for new applicants as noted below: Cal Grant A from 3.0 to 3.25 Cal Grant B from 2.0 to 2.75 Transfer Entitlement from 2.4 to 2.75. This proposal would affect approximately 24,600 students.	96.6
Reduce the maximum Cal Grant award amount for students attending private, non-profit colleges from \$9,708 to \$5,472. This proposal would affect approximately 25,470 students.	99.3
Reduce the maximum Cal Grant award amount for students attending private, for-profit colleges from \$9,708 to \$4,000. This proposal would affect approximately 11,280 students.	57.4
Eliminate the Loan Assumption Programs: The Governor proposes to phase out the Commission's Loan Assumption Programs for Teachers and Nurses affecting approximately 2,600 teachers and 70 nurses.	4.2
<b>Subtotal</b>	<b>257.5</b>
<b>Total</b>	<b>295.9</b>

<b>Governor's Fund Shift Proposals</b>	
Offset Cal Grant Program costs with Federal Temporary Assistance for Needy Families (TANF) reimbursements. The May Revision proposes to shift an additional \$67.4 million in Cal Grant funding from the General Fund for a total of \$803.8 million from TANF.	803.8
Offset Cal Grant funds with ECMC-California Student Loan Portfolio funds. The May Revision reflects a \$30 million increase from ECMC for Cal Grants for a total of \$60 million.	60.0
<b>Total</b>	<b>863.8</b>

<b>Other</b>	<b>Cost</b>
2012-13 tuition increase at California State University. The 9.1 percent tuition increase will result in an increase of \$31.2 million in Cal Grant Program costs.	31.2
Movement of Students from Cal Grant B to Cal Grant A. An increase of \$26.5 million in General Fund to pay for these students who were originally eligible for both Cal Grant A and B, but became ineligible for Cal Grant B due to statutory changes last year.	26.5
<b>Total</b>	<b>57.7</b>

**California Student Aid Commission**

**2011-12 Cal Grant Program  
Pell Grant Proposal by Segment**

**(Proposal: Prorating the Cal Grant A and B tuition/fee award by the same percentage as the Pell Grant award to the maximum Pell Grant)**

Segment	Estimated New Paid Recipients		Estimated Savings (in millions)	
	Number	Percent	Amount	Percent
California Community College	3,590	13%	\$0.0	0%
University of California	8,919	31%	\$42.5	49%
California State University	11,221	39%	\$24.5	28%
Independent Colleges and Universities	4,051	14%	\$18.4	21%
Private Career Colleges	891	3%	\$1.7	2%
<b>All Segments</b>	<b>28,672</b>	<b>100%</b>	<b>\$87.1</b>	<b>100%</b>

Notes:

- \* Source: 2011-12 paid-to-date data (as of March 31, 2012).
- \* Savings reflect the reduction of the Cal Grant tuition/fee award by the same percentage as the Pell Grant reduction based on recipient's cost of attendance and expected family contribution.
- \* Assumes all Cal Grant A and B recipients are attending full-time.
- \* Excludes Cal Grant B access and Cal Grant C awards.
